HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO JULY 26.

Washington News.

WASHINGTON, July 26.—Postmaster General Cresswell met with an accident, yesterday, at his home in Maryland. A chair broke under him and he fell and dislocated his left arm.

Chief Engineer Isherwood, formerly Chief Engineer in the Bureau of the Navy Department, has been ordered to the Mare Island Navy Yard.

The *Semi Annual Navy Register* has just been issued. A notable change appears in the list of staff officers, in which the rank of officers have been reduced in conformity with the late general order of the Department, based upon Attorney General Hoar's opinion of March last. In the present register the highest rank held by any staff officer is that of commander, while in the former several staff officers rank with captain, according to the length of their service. The new register also contains a list of vessels with changed names and a list of ten vessels sold since January.

Rev. Joseph Kinch, colored, denies the recently published statement that he pledged Judge Dent the support of the colored people of Mississippi. He regrets that all further efforts at reconstruction should be made on the basis of universal suffrage and universal amnesty, and that the whites of Mississippi have as thoroughly abandoned resistance to the doctrines of the Republican party as they did to the Government after the surrender of Lee; that they don't feel any interest in common with the Democratic party, and that they concede to the negro equal political rights. There will be no issue between them, and to create one would be a curse to both races.

Ex-Gov. Hahn, of Louisiana, had an interview with Secretary Boutwell, during which he remarked that the sugar frauds at New Orleans were a great injury to honest importers and sugar planters of his State and should therefore be strictly punished; that the people of New Orleans believe investigations would not be prosecuted or the criminals punished on account of the high positions of some of the officials implicated. Secretary Boutwell replied that the parties will be tried on the evidence presented to the country, and no compromise will be accepted. Even should more money be offered than is due to the Government, that the civil suit will be pressed with vigor. It is his determination that the guilty parties be exposed, and should there be no conviction it will be owing to the corruption of the Judge and jury.

The Commissioner of Internal Revenue has decided the use, by Collectors, of *fac simile* dies to impress their name on stamps for distilled spirits cannot be allowed hereafter. The regulations require the actual signature.

A collision occurred at Baltimore last night between two steamers. One vessel was sunk and 23 of the passengers and crew drowned.

New York News.

NEW YORK, July 26.—The yacht *Sappho* has gone down the bay to sail for Europe at the first favorable wind.

Generals Sherman and Sheridan left for Long Branch to-day to attend a ball to-night in honor of the President.

The Anglo American Telegraph Co. announce the gross receipts from the Atlantic Cable since the landing of the first one on July 27th, 1866, at £645,000. The number of messages is steadily increasing from the daily average of 29 under the twenty pound tariff to 230 during last month, while the daily average of dispatches to June, 1869, more than doubled that of June, 1868, under the five pound five shillings tariff. The daily average of receipts show by the same comparison an increase from 447 pounds in June, 1868, to 521 pounds in June, 1869.

Death of a Noted Sailor.

BOSTON, July 26.—James F. Dempsey, who lost an arm in the engagement between the *Kearsarge* and the *Alabama*, and who is the last survivor of the wounded in that fight, died last night.

Crimes at St. Louis.

ST. LOUIS, July 26.—William Plosager shot and killed Earnest Nemier, on the street, last night. Both were Germans, and had been intimate friends. Improper intimacy of Neimer with Plosager's wife is the alleged cause.

Dr. Sanderson was dangerously out by a woman who accused him of giving her medicine to produce abortion.

Tennessee Politics

NASHVILLE, July 26.—The *Journal* publishes a dispatch from Postmaster General Cresswell to Stokes, which says: "Believing you to be a true representative of the Republican party of Tennessee, I earnestly advocate your election, and trust that every sound Republican in your State will rally to your support. It is also the President's opinion and desire.

Another Fenian Scare.

TORONTO, July 26.—Instructions are received from Ottawa to have gunboats on the stocks ready for immediate service. Rumors of a Fenian move are supposed to be the cause of the order.

Singular Accident.

LOUISVILLE, July 26.—A singular and terrible accident occurred near Princeton, Kentucky, on the 20th. An immense mill stone, weighing nearly a ton and a half, rolled off a wagon which was being hauled along side of a steep hill, and rushed with fearful velocity down the hill into a farm yard, crushing through the fences and over several beehives into a pasture beyond, where it ran over and killed two calves and a horse. The bees attacked some children playing in the yard and stung one so that it has since died. Two others are blind and speechless and not expected to survive.

Lawlessness in New York.

ALBANY, July 26.—This P. M. Deputy Sheriff Gregg, of Rensalaer county, went with a posse of twenty men to the residence of a farmer in East Greensburg to make a levy for nonpayment of rent. Reaching the place, he found forty men gathered. The sheriff proceeded to discharge his duty, but was resisted by the farmer. The sheriff attempted to arrest him, when the crowd opened fire with guns on the posse, wounding the sheriff, it is feared, mortally, and two of the posse seriously. The sheriff's party then retreated.

Destructive Fire.

TROY, N. Y., July 26.—The Shatlemere mills at Waterford, New York, with their contents and 12,000 to 20,000 barrels of flour and several thousand bushels of grain, burned to-day. Loss, $80,000.

Miscellaneous.

FORTRESS MONROE, July 26.—An immense 20 inch gun, made at Pittsburg, weighing 57 tons, was landed here to-day.

MEMPHIS, July 26.—A severe shock of earthquake was felt here at two o'clock this afternoon. Several large meteors fell during the night

POUGHKEEPSIE, July 26.—A passenger train on the Hudson River Railroad, going north, this afternoon, ran into a car loaded with iron, at Hudson, knocking it to pieces. No damage was done to the train.

CHICAGO, July 26.—Wm. Weber, from Fort Russell, Dakota, was found dead in his bed at the Sherman House. Cause, heart disease.

Cuban Affairs

HAVANA, July 26.—According to official reports the number of effective regular troops on this island is 32,000, volunteers 4,500. The rebels state that they have 6,000 well armed men in the field, besides a number of guerrilla bands.

Marshal Serrano has issued orders withholding the Government stipend from the Jesuits' College in Havana, owing to the indiscretion of the directors.

BY ATLANTIC CABLE.

LONDON, July 26.—It is rumored that a treaty has been concluded between France, Austria and Italy. The latter, in case of war, is to support France with a contingent of 50,000 men to occupy Viterbo. It is rumored also that Prussia offers the Pope 12,000 troops if the French evacuate Rome.

The *Great Eastern* has arrived. The U. S. practice ships *Macedonian* and *Savannah* have arrived at Portsmouth. Their officers visited the Government establishment there.

Advices from Constantinople state that Egypt is arming extensively.

The *Times* to day refers to the effect of the Disestablishment as follows. The Irish Church now knows what it is and what it can do for the first time in its history. It has a real honest, independent character.

The interest in the Havard and Oxford boat race, exceeds that of the annual University contest. Betting is in favor of Oxford. The ocean race of the Royal Yorkshire Yacht Club came off on Friday. The course was from Cowes to the foot of Hull Roads. The race was won by the *Cambridge*, beating her competitor 10 hours.

In the House of Lords to-night the Royal assent was given to the Irish Church Bill.

In the evening the Marquis of Clenricarde called attention to the inadequacy of the police arrangements in Ireland for the prevention of crime. He said the constant recurrence of outrages in Ireland was a disgrace to the country. The impunity with which murder and outrage were committed showed that the Executive was powerless. He urged the necessity of having a more efficient constabulary.

Lord D. Affers said the Government deplored the recent outrages in Ireland, and was ready to consider any proposal for their repression. It was now considering the desirability of establishing a secret police force. He added that no measure had been neglected to bring the perpetrators to punishment.

The House of Lords has passed the endowed school bills.

In the Commons it was announced that the Royal assent had been given to the Irish Church bill. It was received with cheers.

The telegraph purchase bill passed in the Commons. It was decided by a majority in favor of making a permanent monopoly of the telegraph.

PARIS, July 26.—The *Journal* denies that J. Q. A. Warren, the American who was arrested during the late riots, received ill usage, and asks a suspension of public opinion till after judicial inquiry.

Marshal Neil, Minister of War, has ordered that the number of military cadets to be admitted to the military schools be increased.

The following French appointments are announced: Baron De Tallyrand Perigord to be Senator; Benedetti to be Ambassador to St. Petersburg, and Charles Bendine to be Embassador at Berlin.

The *Journal* officially congratulates the country on the completion of the French-American cable. It says the new route of communication is now open between France and the United States. Henceforth it will render our intercourse more frequent, and our relations more intimate, and draw closer the bonds of friendship which now unite the two countries.

MADRID, July 26.—The attempt by the Carlists to take the cities of Pampeluna and Navarre were frustrated by the garrisons. Several were killed and wounded on both sides. Arrests of Carlists contine at Madrid.

BERNE, Switzerland, July 26.—The Swiss government justifies its conduct in forbidding residence of Mazzini on the Italian frontier, on the ground of revolutionary doctrines and duties imposed by international law.

VIENNA, July 26.—Great excitement was created in Cracow last week by the liberation of a man who had been confined in a convent for twenty years. A popular demonstration was made and a serious disturbance took place. The military were called but to restore order. Many arrests were made. The city is quiet now.

THE WEST.

Seven hundred cords of wood burned up four miles east of Elko, on Tuesday, the 13th, and the same afternoon a hay train of four cars burned near town. Sparks from passing cars were the cause.

A large proportion of the mines in the neighborhood of Blackfoot are lying idle for want of water. Many streams, hitherto unfailing, are dry, and rich claims without number will remain untouched this season.

Another schooner has been commenced in the shipyard at Port Madison, for Capt. Johnson and other parties. Her dimensions are 108 feet keel, 28 feet beam, and 8½ feet hold. She is intended for the redwood trade

The *Chronicle*, at Boise City, incidentally mentions the prospective establishment of another Democratic paper in that place, by Hon. H. C. Street, and throws down the gauntlet for the championship rather defiantly.

Says the Olympia *Transcript*: It is understood that Chief Justice Denison will take the second judicial district, and reside at Olympia; Judge Jacobs, the third district, residing at Port Townsend, and Judge Kennedy, the first district, residing at Walla Walla.

The San Francisco *Herald* says: "The printing press keeps pace with the progress of the iron horse, and already more than twenty new journals have been projected along the route of the Union Pacific railroad." This is one of the peculiarities of American pioneering.

Rev. Dr. Scudder has delivered a lecture in San Francisco on wine making, and concludes on the whole that California ought not to engage in that business. The *Bulletin* comments lengthily, and concludes that the Rev. Doctor is right in his intentions, but wrong in his conclusions.

Says the San Francisco *Times*: Our workingmen have been constantly complaining that the Chinese were going to take the bread out of their mouths, and at the same time that they asked the sympathy of the public in this imaginary strait they have been doing all they could to prevent the rising generation from learning trades.

There is considerable destruction of property by fires in Washington Territory. Pumphrey, on the Cowlitz river, has lost a lot of hay and $500 worth of fences; a number of bridges between Claquato and Skookum Chuck have been burned, and many persons on the Sound have suffered considerable losses. The telegraph poles have been burned for miles.

The late banquet given to the Chicago Commercial party in San Francisco was presided over by Governor Haight. Fung Tang and other Chinese celebrities had places assigned them and ate and drank and made speeches with the party. It seems that the Democratic Governor of California will continue his intimate social relations with the "rat-eating heathen."

The Idaho *Statesman* says that St. Louis wants a branch mint, and that the papers of that city argue that bullion can be transported thither at lower rates than to San Francisco, and with less risk and insurance. It is claimed that the cost of coining to the Government would be far less there than at any other place. The *Statesman* thinks it would benefit Idaho and adjacent Territories greatly.

Gen Hancock has determined upon and will make a report in favor of building three new forts in Montana, one at the mouth of the Muscleshell, one at Fort Benton and one at Diamond City. He will also recommend the opening up of several important Government roads, the surveys of which have already been commenced. Fort Ellis is also to be much improved, and two full regiments of infantry and cavalry will be added to the present military force of the Territory

At the banquet given to the Chicago Commercial Committee at San Francisco, Senator Trumbull said: If a commerce is to be built up with China, a friendly and liberal policy must be carried into effect with that country. [This sentiment was greeted with great and prolonged applause.] A liberal and just policy, on the part of the Government will yet make this city the commercial emporium of the world, and the principles of free America will cross the ocean and encircle the globe

Gov. Fall, says a Unionville correspondent of the Elko *Independent*, has ordered his men to work ten hours. The men refuse, and the paper says Chinese will be employed in their stead, the increased hours being a subterfuge on the part of owners and superintendents to drive away white labor in order to afford an excuse to employ Celestials. O no, these leading Democrats can't conscientiously consent to the introduction of Chinese labor into the mines when they find it to their interest to do so. "It's agin their principles."

GENERAL NEWS ITEMS.

Pennsylvania is the banner State as to railroads, having four thousand four hundred miles of track in operation.

It is worthy of note that every one of the cadets at large to the West Point Academy, appointed by President Grant, is either the son of a gallant soldier, or the orphan child of a father fallen in the service.

Viscount Adair, son of the Earl of Dunraven, is coming here to "study the germs of the great future in American politics and society." He has married an heiress, and has an income of his own of $300,000.

Silk tents are all the rage for the opening of the Suez Canal. The Empress of the French will have hers of blue and white, the Viceroy of Egypt red and white, and Madame Musard, of white silk with green and white borders.

Commodore Chas. Wilkes, of *Trent* notoriety, since his retirement from active service, has been a resident of Rutherford county, N. C., on the eastern base of the Alleghenies, where he has an estate of sixty square miles; being fifteen miles in length by four in breadth.

In Richmond is a negro who, 18 years ago, bought his freedom of his master, and working hard, early and late, soon was able to buy his wife. He has been prospecting since, and he now owns the finest livery stable and hack stand in the State, and is said to be worth $50,000.

The Dialectical Society of London—whatever that may be—has entered upon the task of investigating, in a charitable spirit, and a frank desire to arrive at the truth, the so-called mysterious phenomenon of spiritualism, and in order to be well informed, has summoned before it as witnesses, the famous Home, with other test mediums and apostles of the new faith.

The Cuban expedition which was stopped by the Government authorities at New York cost the Cuban agents at that city half a million of dollars. After having succeeded in reaching a point off Gardiner's Island, at the eastern end of Long Island, a large number of men belonging to the expedition were allowed by their officers to visit New London for the purpose of provisions, and at that place forty deserted. The whereabouts of the expedition was of course immediately ascertained, and a revenue cutter captured the whole expedition.

The River System of China

[Correspondence San Francisco Chronicle.]

The river system of China is unequaled for magnitude and extent by that of any other country, and has been improved by the genius and industry of the inhabitants, so that art has gone hand in hand with nature in utilizing the water for the purpose both of irrigation and transport. The Imperial canal, that stretches from Hang-chow to Pekin, is seven hundred miles long. It is the glory of the Chinese that their country is richly watered, and that by means of rivers, lakes and canals communication is rendered easy between all the provinces. Of all subjects of geography, whatever relates to the rivers of the country they consider the most important, and, consequently, give it the great attention. In their maps they give an exaggerated delineation of the streams and canals, as our topographers do of roads and railways. But in certain districts so close is the network of water that it would be difficult to lay down the lines on an ordinary scale. This is case with the country around Shanghai, where, in a circuit of a hundred miles, there is not less than five thousand miles of water communication through which boats can navigate.

THE YANG-TSZE.

Of all the rivers in China, if not in the world, the Yang-tsze is the greatest. It is the river, *par excellence*, of the Chinese, and its name signifies "Child of the Ocean." Sometimes it is called "Ta-Kiang," or "Great River." On plans which show the lengths of the principal rivers in the world (as the Mississippi, the Nile and Amazon,) the Yang-tsze is generally placed four

I was sittin' in my office, speculatin' in my
'n mind whether on the whole it wouldn't be
st for me to give myself away for the bene-

ock at my door.
There, says I, is some one anxious to sub-
ribe for the *El Paso Journal*, so I uttered in
ond voice:—
"Come in."
She was dressed in a pair of store boots and
iron grey set of spectacles and she walked
to me with majesty in her mein. I
new who it was the minute I set my eyes on

ok. This alwuz gits 'em. It looks like
zness.
It didn't git her.
She fixed her glassy eyes on me and said:
Young man, are yew an advocate for the holy
ws of woman's rights?"
"No, ma'am," said I, "I am a Presbyterian."
"Air you," she said, "prepared to embark
ith us over the sea of equal suffrage?"
"Ma'am," said I, "I haint no objection
takin' a quiet sail with you, provided
e boat ain't leaky, and you'll do all the
win'."
A smile perused her features for a moment,
nd then she said, "I am willing to suffer for
e caws."
"Yes," said I, in a polite and softenin'
anner, "It'll only cost two dollars, an' we'll
nd it to any address for an entire year."
"Have you a wife?" she asked.
"I hev," said I, wonderin' what she was
omin' at. "So that you see I couldn't marry
ou' ef I wanted to ever so much." I threw
his in as a soother.
"Air you willin that she should share with
ou the burdens and trials of life?"
"I ain't no ways particular," said I, "an'

"Would you consent that she should go to

"She can go where she pleases," said I;
she ginerally duz."
"Yew air a hole souled man," said she,

Labor Needed.

[By the S. F. Commercial Herald.

Information from all portions of the State is to the unwelcome extent that largely increased supplies of laborers are required to harvest the growing crops. It may be very fine fun for those who affect to perceive a menace to the perpetuity of our free institutions in Chinese immigration, but the farming community cannot perceive the thing in that light. They are not disposed to let ruin overtake [illegible] bearing parasite, dangerous and [illegible] insect pests to deplore the results of mongrel immigration fifty years hence. It is our duty to take care of the present and [illegible] the bounteous crops which cover our soil. The apprehended danger is so embryotic that agitation would provoke a smile were it not also mischievous. Those politicians who have entered into a crusade against cheap labor, have mistaken the signs of the times, and will deplore their error when too late. From field and vineyard, and orchard, throughout California, the cry for cheap labor rings out clear and loud. Not less than 10,000,000 centals of wheat are to be harv[illegible] Millions of pounds of grapes must be pressed and made into wines and brandies. Large numbers of cocooneries must be tended and nurtured. The products of our extensive orchards must be gathered. Can we afford to let these vast treasures rot and spoil? Must we give way to the exigencies of the moment, or must we listen to political clap-trap, and witness the ruin of our [illegible] by [illegible]? Are we to fold our arms in slumber, or should we make one effort to realize the gifts within our reach? The harvest is truly great, but the laborers are few." Is it not, then, the province of [illegible] and reflecting men to hire laborers wherever they may be had? While we are discussing the future possibility of conferring suffrage upon Chinese, is it good policy to starve? While ruminating upon the complexion of political dogmas in the hereafter, is it reasonable to sacrifice the material prosperity of our State? While analyzing the integuments of Chinese or African skin, and evolving the aromatic flavors of its exhalation, is it wise to let our agricultural industries perish, and our reputation die? These are the hard, materialistic questions which must be answered now. There is no possibility of dodging the issue, for it is already upon us, and will not be postponed. Men of all political creeds throughout the grain-growing and wine-raising districts are fully agreed on these points. The country needs cheap labor, and cheap labor it will have despite the angered howlings of city mobs, or the fulminations of short-sighted, abstract politicians.

We copy the following from the London *Times*: "Nothing is more curious than the growth of an entirely new periodical literature and journalism of the turf. Conducted with remarkable energy, talent, and enterprise, our daily and weekly sporting contemporaries are the daily intellectual bread and meat of many thousands of Englishmen, who take no thought for any other and meaner public affairs.

From the N Y Commercial Advertiser

There are 17,919 names who pay an income tax in this city. Sixty-seven persons who pay tax on incomes of $100,000 or over. Most of these solid gentlemen are self-made men, who have come up from the lowest round of the ladder. The man who leads the list, A. T. Stewart, everybody knows is an Irish emigrant, who commenced life with a capital of less than twenty-five cents. Indeed, with few exceptions, most of the parties in the list were scarcely as well off as Mr. Stewart. Take Henry Keep: he boasts that he graduated from the Poor House of Jefferson county. Jay Gould drove a herd of cattle from Delhi, Delaware county, when a lad, for fifty cents a day, in order to get money enough to reach the Hudson river. David Groesbeck, over thirty years ago used to mend old shoes for his brother, who was a respectable shoemaker in Albany. We all know the history of James Gordon Bennett, Robert Bonner, poor boys full of talent and industry. Rufus Hatch, when a youngster, had the ambition to hold the reins of a peddler's wagon. E. D. Morgan commenced life with a quarter measure of molasses. It is scarce a dozen years since Henry Clews was an errand boy in one of the banking houses down town. The brothers Seligman started out in life with a peddler's pack. David Dowes, in his younger days, retailed pork by the half pound and molasses by the gill. H. T. Helmbold was first cabin boy on the sloop *Mary Jane*, that navigated the Delaware River. We might go on through the list, and show that nearly every one of these solid men were the architects of their own fortunes. Young men, who are struggling for place and position, should remember that the individuals in the list below had to battle for life just as hard as they are doing. Let them take heart and never say die.

Honor and shame from no condition rise,
Act well your part—there all the honor lies

THE DUSSELDORF ACADEMY OF FINE ARTS.—The celebrated Academy of Fine Arts in Dusseldorf has just celebrated the fiftieth anniversary of its foundation. It dates from 1767, when the Electoral Prince Charles Theodore of Pfalz-Stultzbach collected in a gallery the treasures of art he had inherited from his predecessors and those he had acquired himself, supplementing the gallery at the same time by a school of art. The establishment almost ceased to exist when the country of Berg fell, in 1789, to Bavaria, and the Electoral Prince Maximilian Joseph had the pictures removed to Munich (where they still remain), under the pretence of putting them in a place of safety, on account of the threatened war between Prussia and France. The Bavarian Prince also invited Langer, the talented director, to Munich, in order to found a new academy in that city. While Dusseldorf was in the hands of the French, the former academy only vegetated as a needy drawing school. Prof. acquired fame, and immediately the [illegible] of the academy was decided on, but a few years passed over before much was done, as the Government had in view the establishment of a polytechnic school in connection with it. At length in 1819, a satisfactory plan was wrought out, with the aid of Peter Von Cornelius, and approved by the Government. It was resolved to separate the polytechnic school (which is now at Aix-la-Chapelle) from the academy, and to re-open the latter, for its original purpose, under the directorship of Cornelius. That eminent master retained his post till 1824, when he returned to Munich, the academy of which could already boast of a European reputation, but he had a successor in Schadow who did much to increase that of the Academy of Dusseldorf. A monument to Schadow was to be unveiled in Dusseldorf on the 24th June.

ANIMAL SAGACITY AT THE NORTH POLE.—According to the Esquimaux, the seal constructs its habitation beneath the surface of the ice in such a manner that it can enter it from the water below; here the young seal passes its infancy, and when the returning heat of summer has destroyed its igloo, or dwelling, the young seal is old enough to take care of itself; but this mode of lodging the young beneath the ice is well known to the bear, who with its keen scent soon detects the whereabouts of the seal's nursery, and in order to gain an entrance, the bear, retiring a short distance, makes a spring and comes down with all his weight on the roof of the igloo, crushes it in, and immediately seizes the young seal with its paw. Here it might be supposed the hungry bear at once devours its prey; but no, it is far too wary to do so, it knows full well that where a babe is there must of necessity be a mother, and that she will be in search of her darling; therefore the bear scrapes away the snow from the seal hole, and holding the young seal by the flipper, allows it to flounder about, and when the mother approaches, the bear slyly draws the young seal toward it until the old one is within reach, when he seizes her with the other paw, and thus captures both. The mode in which the bear captures the seal on the ice is very similar to that followed by the Esquimaux. When at a distance from the seal, the bear throws itself down and stealthily crawls or hitches along toward the seal; and if the seal looks up it lies perfectly still and waits, at the same time, a noise which lulls the seal; the bear repeats the operation until it approaches its victims so near that escape is impossible, when it falls a prey to Bruin's appetite. Another mode of obtaining food by the bear is to watch from a cliff the movements of the walrus, who are fond of sunning themselves on the rocks, and when one of these has taken up a position for the bear's purpose, the latter lifts a large piece of rock, and, with astonishing accuracy, throws it down on the animal's head. If the walrus is only stunned, the bear rushes down, and with the rock hammers its victim on the head until it is dead. When attempting to capture a seal in water, the bear sinks its body beneath the surface of the sea, leaving only the head above water, which resembles a piece of floating ice; when the seal raises its head above the surface, bruin quietly sinks, and swims under the seal secures it.—*Illustrated Travels.*

JUDAS ISCARIOT'S COMPLAINT.—The Cincinnati *Enquirer* proposes to substitute for "Decoration Day," a Contribution Day, with one day in the year set apart, and North and South, for the collection of funds for the care of the widows and orphans of fallen heroes, whose wants cannot be supplied by such ceremonies as those of Decoration day. This would be better, no doubt, for the widows and orphans, but not so good for the Grand Army of Radical office hunters.—*Philadelphia Age.*

"Then took Mary a pound of ointment of spikenard, *very costly*, and anointed the feet of Jesus, and wiped his feet with her hair; and the house was filled with the odor of the ointment. Then saith one of his disciples; Judas Iscariot, Simon's son, which should betray him, 'Why was not this ointment sold for *three* hundred pence and given to the poor. This he said, not that he cared for the poor, but because he was a thief."—*Philadelphia Press.*

FACTS WORTH KNOWING!

IF YOU WANT TO BUY A FARM YOU EXAMINE the soil, the lay, the locality, the title and the price.
If you want to insure a year life examine the workings of the Company before you invest
If you examine you will

INSURE IN THE NEW ENGLAND MUTUAL LIFE INSURANCE COMPANY!

WHY?

BECAUSE you get your first DIVIDEND to HELP PAY YOUR SECOND PREMIUM. You do not have to wait 3 or 4 years for the distributions.
BECAUSE we have NO STOCK HOLDERS to draw from 12 to 25 per cent. on imaginary CAPITAL STOCK (personal promises to pay) amounting from $30,000 to $50,000 annually.
Because the NEW ENGLAND is a Mutual and is a Home Company in all our bread and beautiful country, an American Institution—the first one formed on the PURELY MUTUAL plan on this Continent.
BESIDES it is the only Company offering you the protection of the Massachusetts Law
For example: A person aged 25 insures for $1,000, pays $23 60, say on the 1st July, 1869. Were he to die on the 4th July, 1871, 2 years and 3 days after, his policy would be paid Thus.

Say amount Policy is	$1,000 00
Deduct two annual payments he has not paid, $23 60 each, and interest	54 62
The family would receive	945 38

No Snap Judgment here. This is what we call EQUITABLE and MUTUAL
Five annual payments keep the Policy in force 10 years and 56 days.

Policies on which Note has been given for one-third of the Premiums.

Five payments will continue in force nearly five years after payments have ceased.
On ENDOWMENT POLICY the time is prolonged in proportion to the amount paid.
Take the statements of no solicitor for other Companies of our beneficent workings, but call and *satisfy* yourselves. We will be pleased at all time to communicate every information.

THE New England Mutual

Is the only Company on this Coast that offers the above advantages to Policy-Holders.

The above examples are facts that are incontrovertible, and will be proven to the satisfaction of all persons calling on our agents.

UP THE COLUMBIA.—The Walla Walla *Union* says

On Tuesday last, most of the city officers, elect, entered upon the discharge of their respective duties The new Board organized by electing Dr. W S Mineer President

Mr A B Roberts placed on our table on Thursday, the 22d inst, a basket of ripe peaches Mr R made this first shipment of peaches to the mining country on the 21st inst

The ladies of our city rendered Miss M Field a complimentary benefit on Wednesday evening last

Mr. Wm. Rexford left with us yesterday some specimens of quartz which appear very rich in both gold and silver We understand that the ledge out of which they were taken was discovered by some men mining in a placer claim, in what is known as Barclay's Gulch, Oro Fino. One of the specimens shown us was taken from the ledge forty feet below the surface, and it looks well, showing the precious metal to the naked eye.

The following items are from the *Statesman*.

For the past week the thermometer has ranged through out the day all the way from 98° to 104° On Tuesday it reached the highest, and in the shade the thermometer marked 104°

On opening the jail at an early hour on Wednesday morning, Sheriff McAuliff found that one of his prisoners, a man named John Weaver, had escaped. He was confined on the charge of having killed a valuable horse, the property of S. M. Wait He managed in some way to obtain a cold chisel, and with this he cut away the iron bar of his cell window and made his escape

The gentlemen composing the "Railroad Party," left here on Tuesday last for the purpose of continuing their recon I. ~e of a route for the North Pacific Railroad. It is known that they have already examined the bays and harbors of Puget Sound and the Straits of Fuca They will now travel northeasterly to the Coeur d'Alene and Pen d'Oreille Lakes, and up the Columbia to Montana, passing by Deer Lodge and Gallatin valleys to Helena City, and make a thorough examination of the Cadot and Mullan passes in the Rocky Mountains. After examining the passes and exploring the upper portion of the Yellowstone, they will go down either that river or the Missouri to the North Bend, near old Fort Clark, where they expect to meet another party which has started from Lake Superior.

THE BUSINESS OF PORTLAND.—Our evening cotemporary has something, occasionally, to say, about the "financial incubus" which, it is pleased to say, has fastened upon Portland. It is not clear what it means by the word incubus, nor that it means anything in particular. The nature of the incubus has not been described. But people at a distance, reading in a Portland paper, frequent mysterious mentions of an "incubus," may suppose that some malevolent spirit has spread its dark wings over our city and fastened its long, sharp and cruel beak and claws into our corporate flesh, with sinister intentions of feasting upon our corporate vitals. Such readers will, however, get a wrong impression. We are gratified at being able to assure all timid souls that there is no such bugbear as an "incubus" within our city limits. Such fellows wouldn't be allowed to stay here even for supper, much less, over night. But without levity, there never was a season when Portland did a heavier business than it is doing now. It has bought and sold more goods of all descriptions than ever before; has loaded and unloaded more vessels; has built as many or more good houses; real estate has never been more active: our people have never more indulged in luxuries, and the pleasures of life, and they have never been better able to afford it; there never was a time when people could look so confidently and hopefully to a bright and prosperous future; and never a time when our "settlers" would have exhibited a more obstinate determination to stay. If the basis for all this is "incubus," why, the best thing that can be done is just to send to the shop where they make 'em and buy the whole lot, finished and unfinished.

FROM SALEM.—The *Unionist* says: Seven persons received the ordinance of baptism by immersion, and were taken as members in the M. E. Church in this city last Sunday.

We are informed by a gentleman who resides near Sublimity in this county, that there are several valuable farms in that vicinity for sale.

Boats have great difficulty in navigating the river on account of the low stage of water But little freight is passing either up or down in consequence.

Reed's theater building is progressing rapidly toward completion. Patton's brick structure is also built up to the top of the second story. Workmen are busily engaged on Chamberlahen's new edifice, which is to go up just south of Bush & Ladd's bank building.

A gentleman who resides on the other side of the river, informs us that yesterday a number of drunken Indians [illegible] his residence howling like a band of wild beasts, and frightening women and children in a terrible degree. They had just been to this city, where in all probability they obtained whisky.

PORTLAND ACADEMY AND FEMALE SEMINARY.—The examinations were concluded yesterday. Quite a number of visitors were in attendance, all of whom expressed themselves as highly pleased with the proficiency exhibited by the scholars in their various studies, while the good order and discipline which were displayed were the subjects of favorable commendation. In the three years which have elapsed since Prof. Gatch assumed control of the Institution, it has steadily grown in popular favor, and was never more deserving than now. The graduating exercises took place at the M. E. Church last evening. Two sons of Judge Strong, Theresa N. and Frederick R., having finished the course of study laid down by the Institution, were presented their diplomas by Dr. Watkins, Pres't of the Board of Trustees. This was followed by a very interesting address by Rev. P. S. Knight. The exercises were interspersed with vocal and instrumental music, and were well received by a large audience. This evening, there will be given an entertainment by the pupils, to which the public are invited. They will no doubt be very interesting.

THAT NEW DRESS.—Our neighbor of the *Herald* cackles with the vanity of rustic femininity over her (or his) "new dress." Of course it is supposed that the rustle of the goods will produce a sensation. Our neighbor has been more lucky than the milkmaid of the fable; for, in this case the milk has been sold, the "dress" has been procured and the happy owner is strutting about in [illegible] for admiration. We have no hesitation in saying that the 'tickle' which is playing Bo-peep through the [illegible] system of our neighbor, has infected us. We are glad he has a new dress, glad that he can afford it, and glad that it makes him happy. Tastes, however, differ, and while we admit that the type is clear and handsome, we think it too large for a metropolitan [illegible] paper, and makes it look more like an easy-going, tidy and well to country paper. However, if the owner of the new dress is satisfied, we know of no good reason why anybody else should pine and die on account of the impositions they may see.

EASTERN MADE CARRIAGES.—Of late the trade in Eastern made buggies and carriages has become one of considerable importance. There seems to be not only in the towns, but all over the country, an unwonted demand. Many of them are of elegant finish and costly workmanship, giving evidence of not only refined taste but the [illegible] of ample means, among our rural neighbors. We have no means of knowing how many buggies and carriages have been purchased through our city houses the present season, but the number is so considerable as to be decidedly noteworthy. A great number of two-horse wagons have also been imported and sold here during the present season. The only thing wrong about all this is the fact that large sums of money are being drawn out of the State by this trade, which ought to go to home manufacturers of similar articles.

INFORMATION WANTED.—Of Thos C. Johnson, who came to Walla Walla valley, in 1860, in company with Thos. Estes, senior, and went to Florence in 1862. Was last heard from at Florence, in 1863, since which time his friends have had no tidings from him. His brother William Johnson living at Evening Shade, Arkansas, desires to hear from him. Any information addressed to his brother as above, or to David R. King, Walla Walla, W. T., will be thankfully received.

ARRESTED—BAILED—SCRIBBLED.—Some time last week in Washington county, L. O. Landers, commonly called "Wild Yank," was arrested and lodged in jail for threatening to kill his father-in-law. His wife had left him on account of ill usage, as is said, and had gone home to her parents, whereupon Landers uttered threats of killing. He was arrested and committed to await the sitting of the grand jury, but was subsequently bailed out, since when he has disappeared.

NEW PUBLICATION.—S. J. McCormick has been for several months engaged in compiling a Dictionary of the Chinese Language, which, we understand, he will publish in the course of the ensuing month. It will be an interesting addition to the literature of the day, and, withal, of much use, no doubt, in the business transactions between Americans and Chinese, which are becoming more and more frequent, and of greatly increased consequence.

WORK ON EAST SIDE RAILROAD.—The gang of Chinamen who were set to work at East Portland on Monday, are grading from the point where ground was broken toward the river, for a temporary track to the temporary dock to be built near Mr. Stephens' place. They are said to be under the superintendence of a late foreman on the Pacific railroad, and to be throwing dirt a little faster than was ever done by Chinamen in Oregon.

U. S. CIRCUIT COURT—DEADY, J.—Proceedings of Tuesday, July 27th:

John Dolan appointed crier.

G. O. Holmes vs. T. J. Holmes et al in equity; hearing on exceptions to answer continued until Thursday next at 10 A. M.

Adjourned to Thursday next.

AYRESHIRES.—Mr A J. Dufur of this county will start in a few days, on a visiting and business trip to the Eastern States. The *Farmer* says he contemplates purchasing a number of Ayrshires in the East and bringing them to Oregon. His present purpose is start a dairy near Salem, and stock it with this kind of cattle

NOT WANTED.—The *Commercial* enumerates a regular "grist" of things which it says are wanted in Portland, among which is "more get up and dust" among the people. We make no objection to the "more get up" if anybody wants to get up more or pfiener than they do, but we do protest against having "more dust."

SICKNESS.—Within the last few days, there have been numerous cases of sickness in this city—summer complaints, bilious fever, ague, etc. Most of the deaths among children have resulted from summer complaints. We learn that sickness of similar kinds is prevalent in many parts of the Wallamet valley.

IMPROVED.—The state of the atmosphere in this neighborhood has been greatly improved by the South wind which prevailed Monday night and part of yesterday. Nearly all the smoke we had came from the Cowlitz mountains, and much of it has been driven back toward its source.

SPRING GRAIN.—The concurrent reports concerning the yield of spring grain, are to the effect that there will be just about half a crop throughout the Wallamette valley much new wheat has already been put in granary Were the river high enough to enable the boats to carry freight, we should very soon have plenty of new wheat in this market

FROM SAN FRANCISCO The steamship *Pacific*, sailed from San Francisco for Portland yesterday afternoon—may be looked for Friday

FREIGHT FROM SAN FRANCISCO.—The bark *H W Almy*, from San Francisco, brought up for Lendrel and twenty five tons of merchandise

The *Examiner* is quite fearful, through two columns, that disgrace and destruction are coming upon the Democracy of San Francisco and that State. Correct.

A man in England, who has been studying the flea for many years, claims that that insect is endowed with intellect. Angel, man, flea is his order of intelligence.

NOTICE.

WE TAKE PLEASURE IN CALLING the attention of dealers to a valuable Patented Improvement in Electro Plating Spoons and Forks, by which those parts most exposed to wear receive an

EXTRA COAT OF SILVER!

THREE TIMES THE USUAL THICKNESS,

viz: on the back of the handle, bowl of the spoon and points of bowls of spoons—back of the handle and breast and points of tines of forks, as illustrated in cut.

This mode of Electro Plating greatly supercedes the old way of plating. The great advantage will be readily seen, as spoons and forks always wear through on those exposed points, while the plate is yet good on other parts of the article. This new process will add THREE TIMES TO THE DURABILITY of goods so plated.

Knives, forks and spoons stamped "1847 ROGERS BROTHERS A1 XII," are Electro Plated by the new Patented Process.

We have now been before the public since 1852, manufacturing ELECTRO-PLATED GOODS, which have stood the most severe tests of wear in hotels, steamers and private families, and have given universal satisfaction, supplying, as it does, all of the advantages of silver in durability and beauty. We wish to call particular attention to the hardness and firmness of our White Metal, which exceeds anything of the kind made in this country. All goods plated on this metal bear our trade mark, and the plating is warranted THREE TIMES THE USUAL THICKNESS.

WHITE'S NEW MAP

OF

WASHINGTON TERRITORY!

WEST OF THE CASCADES.

OLYMPIA, W. T., May 24, 1869.

THE UNDERSIGNED WOULD RESPECTFULLY solicit subscriptions to enable them to publish a MAP OF WASHINGTON TERRITORY West of the Cascades, compiled from the United States Surveys and the best and latest authorities. The scale is four miles to an inch, making the map sixty seven by fifty one inches. In addition to the topography of the country, the map shows the extent of the Surveys, the Indian and Government Reserves, the Prairie lands, the soundings of the principal harbors, and many other particulars not given in previous maps. THE SUBSCRIPTION PRICE IS TEN DOLLARS; RETAIL PRICE, TWELVE DOLLARS. The map will be furnished, colored, mounted and complete, by August. It was forwarded in March to the establishment of Colton & Co., New York, for publication.

Subscriptions may be forwarded to Joseph Cushman, Receiver Land Office, Olympia; W. C. Painter, Walla Walla; A. G. Cook, Vancouver; S. J. McCormick, Portland, who will receipt.

We call attention to the following endorsements.

OLYMPIA, W. T., March 27, 1869.

C. A. WHITE, Esq.—*Dear Sir:* Having examined your original map, embracing that portion of Washington Territory west of the Cascade Range, I desire to add my testimony to its value Having been engaged for a number of years in the surveys from Cape Flattery to the Head of Puget Sound, I have examined this portion of your map more critically than others, and I take pleasure in vouching for its general correctness

This map will fill a want that has long been felt, not only among the residents of this Territory, but others, who are desirous of obtaining information of this portion of the "Far West," and I trust that we shall soon see it in a form suitable for general distribution.

JAS S. LAWSON,
Asst U. S C. S.

We endorse the annexed opinion of Jas. S. Lawson, Esq., and will add that Mr Chas A. White is a practical surveyor, and has had access to the township maps in the two Land Offices in this Territory, as also the Coast Survey charts, and we can vouch for the map of Washington Territory, west of the Cascade Range of Mountains, as being correct, and the only good map of the same territory that has been made.

WEDNESDAY MORNING, JULY 28, 1869.

Naturalization and Enfranchisement.

California papers inform us that the Democracy in that State are fast growing in favor an entire repeal of the naturalization law. They would shut out all foreigners from naturalization so as to make sure of excluding the Chinese, who are already excluded. The Sacramento *Union* inquires "Is this a new eruption of the old Know Nothing spirit in the Democratic blood? As for Republicans, they do not fear that John Chinaman can jump over the word 'white,' nor do they wish to let down that bar in the way of him or other colored foreigners."

In the policy of the Republican party there is at present no more delicate question than the restoration and extension of the privilege of citizenship. There is nothing more dangerous, and yet more absolutely necessary to the prosperity and glory of the nation than the liberal naturalization of foreigners and the generous enfranchisement of persons who have forfeited their privileges by participation in the rebellion. No party can so well afford to be liberal and generous in these regards as the one now in power, yet to no party will such a policy be more dangerous; and in extending both, particularly the latter, it owes it to itself and the country that it shall be just as well as generous. It is certain that there will be no more restriction in future to the naturalization of foreigners than now exists; but how shall the ex-rebels be dealt with?

This class of persons should be restored to the position they have forfeited only so fast as they accept the declared will of the country upon every question involved in reconstruction. In Virginia, for instance, the whole people have accepted every requirement of the nation and clearly do not meditate any reactionary movement. The President has therefore been very liberal with them. But in Tennessee there is a fierce contest, and the immediate enfranchisement of the whole ex-rebel population would clearly be fraught with danger to the peace of that State, and in some degree to the whole country. The President therefore does not hesitate to declare that he is anxious for the success of the Stokes party, believing that the safety of the State will be endangered by the immediate enfranchisement of its whole turbulent and reactionary population. In such of those cases it is necessary to proceed with caution and with a due regard for circumstances; and the action of the President shows that he fully comprehends the nature of the situation.

A Lower Rate of Interest.

For the first time there now appears to be a strong probability, amounting almost to a certainty, that we shall soon be able to fund our national debt at a greatly reduced rate of interest. The admirably economical and reformatory administration of President Grant is making this possible. Mr. Boutwell's great financial success is strengthening our credit with all the world, and absolutely [illegible] opposition at home.

While the credit of the Government remained so greatly depressed as it was under Johnson's administration, it was impossible to derive any advantage from the issue of bonds bearing a lower rate of interest; for any reduction of interest under such circumstances must necessarily have been fully compensated by the reduction in price which the bonds must have sustained in open market. An expression of the principal would therefore have resulted from a reduction of the interest, and the country would have been no better off than before. But now, since our stability and our purpose to pay off the whole debt honestly and speedily have been demonstrated, the capitalists of Europe are expressing a desire to invest in our securities, and are offering to take hundreds of millions of them at lower rates of interest than we now pay. We may therefore expect that our debt will be funded shortly on [illegible] which will enable us to save twenty or thirty millions per annum in the payment of interest.

The people now have an opportunity to see what can be accomplished by honesty and capability in the management of public affairs. Is not the financial situation every way more satisfactory now than it would be if we were [illegible]ing along under the burden of a continually depreciating public credit, offering to pay in greenbacks, or seriously threatening repudiation? The country is now beginning to see what it gained in a financial point of view by electing Grant instead of Seymour and Blair.

In General.

The electioneering intrigue to get out Secretary Boutwell for the Presidency was a trick designed to embroil him with the President and so get him out of a department which he is not administering in the interest of outside rings. The trick failed miserably of its purpose. The rings can neither handle nor scare the President and his Secretary.

The San Francisco *Herald*, with that humanity which is so conspicuous in Democratic papers in all cases where the "inferior races" are concerned, opposes the formation of a Society in San Francisco to protect Chinese from "civilized outrages." The *Herald* evidently thinks that its party has much to gain by these exhibitions of brutality. By maltreating Chinamen they hope to keep up their Democratic enthusiasm.

The New York *Herald* anticipates a split in the Tammany ranks, saying that "the German Democracy are preparing a list of the political disabilities under which they say they have hitherto labored, and are drawing up a bill of rights which they demand shall be conceded to them. A disturbance so serious as this threatens to be, no matter what the result, must extend its influences and operate on the Irish element—also tenacious of its political rights, and, knowing them, 'dare maintain them.' Here is a pack of trouble for Tammany."

We are pained to witness in the new editor of the *Herald* such early symptoms of intellectual exhaustion. That promising mine of original intellectual treasures which was to be opened to the admiring gaze of bewildered Oregonians, seems to be already worked out, and our amiable and affable neighbor has fallen into the course pursued by his unfortunate predecessors. His resources, like theirs, having given out, he has begun to saw away on that same old string about the Oregonian and the "Federal Judge." This is a symptom which, if we may judge from the examples of the past, presages an early collapse. It has been noticed that editors attacked in this way don't hold out long.

Samuel B. Ruggles sailed from New York a few days ago as the representative of the United States to attend the International statistical Congress at the Hague, as the representative of the United States. The Congress meets near the last of August, when Mr. Ruggles will bring officially before it such statistical and other information as will contribute to a better understanding abroad of the resources and prosperity of the United States, and to more just views of their relative position in the family of nations. This is the seventh of the series of Congresses at which the interests and resources of the civilized nations of the world have been brought together and compared, and it is confidently predicted will be the most interesting of the series.

While the people of our State are absorbed so deeply in railroad enterprises, another work which promises results of the greatest importance should not be overlooked,—we mean the construction of locks at Oregon City by the P. T. Company whereby steamboats and other craft will be enabled with little cost or delay to ascend or descend the Willamet river throughout the whole of its navigable length. In taking hold of this enterprise the P. T. Company are evincing a spirit which corresponds with the demands of the times. Though we have two or half a dozen railroads through this valley the Willamet river will always be an important channel of commerce, and the Company in constructing locks at Oregon City are adopting the very plan which will give this channel the greatest possible efficiency and importance.

The Mistake of San Francisco—Opening for a Chinese City on the Pacific

Under this caption the New York *Herald* of July 5th has the annexed article. It is well known that the *Herald* is not a paper which gives way to maudlin sentimentalism in regard to the colored races; and when we find an article like this in that journal, it is proof enough that there is practically but one opinion in the Eastern States regarding the importance of Chinese labor for the development of the resources of this continent. The following is the *Herald's* article entire:

There is one dark blot upon the fair escutcheon of California, a narrow and bigoted policy among her people on one point, which, in view of their general broad intelligence and large grasp of mind, we are surprised as well as pained to see. The Golden Gate, as the representative city of our Pacific empire, has in general exhibited a liberal policy and an enterprising spirit in grasping the early indications of coming greatness, which has been adequate to its mission and its portentous future. But in the one great duty which falls upon it as the pioneer in the movement of the mingling of the nations in the Western world it has been wanting in comprehension of the future, in catholicity of feeling and in a proper appreciation of its own vast interests. The persecution which the intelligent portion of the community have permitted to be exercised towards the incoming millions from China and Japan is a wrong which, if not remedied at an early day, will be equal to turning the imperial position of the Queen of the Pacific into the lap of some more wise and just community.

The advent of millions of industrious, frugal, intelligent and docile laborers from the teeming populations of China and Japan to our Pacific and Central regions is the coming event of the close of the nineteenth century. With its development we are to enter upon an era of production, trade and material and intellectual development such as has never before been witnessed by the world, and beside which the past growth of our own interests, now looked upon as so vast, will shrink into pigmy proportions. The great experiment of the mingling of nations under free institutions, and with the largest liberty for the labor and mind of man, is to be developed upon our Pacific slope, and its swelling waves will speedily overrun the plains of our Central and Southern regions. The Pacific railroad will be but a rill for the sweep of its broad waters. Lying as it does at the very threshold of this mighty movement, the city of San Francisco can, if it chooses, guide the incoming tide and rise to greatness upon it.

But to do this it must stop all the spirit of persecution which it has hitherto permitted to be exercised towards the Chinese immigrant by its population, and uphold the majesty of our laws and the sanctity of treaties. It is but a few days since we saw announced the arrival of twelve hundred Chinese at San Francisco by sailing vessel, and already a body of men calling themselves the Mine's Union call upon the white workmen to assemble to begin anew the work of persecution. If these things continue the best course to be taken will be the building of a Chinese city at San Diego and the establishment of a rival to the Golden Gate. We are not sure that this result will not come anyhow. Our Chinese and Japanese could establish there a new centre under many advantages. They would obtain control of the western terminus of the Southern Pacific road, which, after all, promises to be the shortest and best route between the two oceans. A Chinese city as a rival to San Francisco, under the guarantees of the new amendments to the constitution, would soon become a formidable rival, and, animated with a more enlarged, just and intelligent spirit than that now exhibited in the Golden Gate, would in ten years dispute the empire of the Pacific.

There are not wanting intelligent minds in San Francisco who see the evils that will accrue to their city from this unwise and unjust persecution and they already propose to take action by calling a public meeting of the citizens to consider the subject. The evil is increased by the old party hacks among the Democrats there, who are pandering to the ragamuffins that get up the outcry, thinking to make political capital out of it. Both the law and our treaty obligations are clear on the subject, and the Chinese who come to this country have all the rights that an Irish or German emigrant can claim and that our own citizens are entitled to. It will be well for San Francisco if the authorities there see the error of their ways and mend it before the evil compels a remedy.

Postal Matters.

The following item appeared in the Idaho *Statesman* a few days ago:

The postoffice at Portland sadly needs reconstructing. Last Friday a brass lock pouch arrived here tagged "Boise City," containing a mixed lot of Eastern, Montana, Idaho, Walla Walla and Umatilla mail matter. It was not simply tagged wrong through mistake, but was improperly assorted. Somebody has been drunk

Grave charges are here made which are altogether without foundation, as the following communication from Postmaster Wakefield of this city, endorsed by Postmaster Waldron of the Dalles, conclusively shows

EDITOR OREGONIAN:

In answer to the above item which appeared in the Boise *Statesman*, I have simply to reply that the editor of that paper labors under a mistake, and should have informed himself about the facts before making such a statement.

In the first place a lock mail pouch is never sent from this office tagged "Boise City."

All letters from this office for Salt Lake and Eastern States are sent in a lock pouch, tagged "Salt Lake," which is not opened, as we suppose, till it reaches that place.

All letters for Idaho, Montana, and for places east of the Cascades and this side of Salt Lake are put into a lock pouch and sent to the Dalles office.

Now this "mixed matter" for Idaho, Walla Walla and Umatilla, was probably put up in the Salt Lake office or some place to the east of Salt Lake.

Respectfully,

L. H. WAKEFIELD, P. M.

Portland, July 27, 1869

I certify that the above is true to my own knowledge.

NICE PRESENTS. An American gentleman, who declines giving his name, has sent to prominent persons in the late war some magnificent presents, testifying his joy at the overthrow of rebellion and the end of slavery. President Grant receives a silver coffee set of thirty-six pieces, and some dressed leopard skins. General Sherman receives an egg boiler and holder. For ex-Secretary Seward there is an inkstand and penholder, most ingeniously contrived, besides a call bell, and Mrs. Lincoln's portion is a heavy card basket. All the articles are of solid silver, without any dearth of metal, and of the most beautiful finish and workmanship. The President and General Sherman have received their portions, and some idea may be formed of their value from the fact that the duty on the President's lot was $748, and on Gen. Sherman's $164.

Rev. Mr. Murray, of Boston, announces "that he is not afraid to enter the dens of any theological lions that ever howled."

A three story hotel is to be erected at Olympia by Hill Harman. Size, 70 by 80 feet.

The San Francisco *Bulletin* wants Democratic papers to stop fighting Chinamen. What would be left!

The Ladies' Hebrew Benevolent Society, of San Francisco, realized $821 50 from the calico ball recently given in aid of its funds.

"Elsie Holt" is personating the "nude woman on the boards at San Francisco. She "outstrips" "the Menken" in her palmiest days.

All the military posts on the Upper Missouri are now supplied with the main articles of subsistence from the products of Montana.

A man named John Swade had his leg torn off at the hip joint by a threshing machine in San Joaquin county, Cal., last week. He died almost immediately.

It is stated by a Puget Sound paper that the submarine cable leading from the main land to Victoria is broken and that it will have to be taken up for repairs.

The Montana *Republican* is the name of a new paper just issued in Virginia City by an association of prominent Republicans of that place. It is edited by H. L. Hosmer.

Says the Helena *Herald*: The company of "French Boy," on French Bar, last week cleaned up from a run of five days *thirty pounds* of beautiful coarse gold. Beat it.

A lot of enterprising individuals on Puget Sound have "jumped" an Indian reservation and propose to make it *the* "terminus" on the "finest body of water in the world."

The Corinne *Reporter*, of the 15th of July, reports travel over the Union Pacific railroad distressingly light, and says this will continue to be the case till the fare is reduced.

The Seward party was at Olympia on Thursday last. They came up on the *Hunt* while the *Active* went to Nanaimo for coal. Mr. Seward addressed the people of Olympia in a fifteen minutes speech.

The people of Grass Valley, Cal., have formed an association to protect workingmen in their right to labor, which right has been denied by a band of ruffians who dwell in and about that place.

GENERAL NEWS ITEMS.

The lives of all the members of the Chicago Fire Department have been insured for $2,000, by subscriptions by business men of the city.

The President and General Sherman approved the proposed plan for the erection of a monument to the memory of the soldiers who died in rebel prisons, and they promise their co operation in the matter.

Bayard Taylor has been appointed Professor of German Literature at Cornell University. Mr. Taylor is one of the most proficient students of German literature in this country, and has become himself as far Germanized as so cosmopolitan a gentleman could well be. He will begin his lectures next March.

The Boston *Transcript* says: "There is some excitement among the Republicans of Northeastern Massachusetts at a remarkable attempt Gen. Butler is making to control custom houses and newspapers. There is a turn in the tide." The General is after Senator Wilson's seat in the Senate, and will undoubtedly make a very tough fight for it.

William A. Howard, nominated and confirmed as Minister to China, will decline the appointment. He has recently been offered a lucrative position as attorney of a prominent railroad and land company in Michigan, which it is more than probable he will accept. In this case the chances are that J. Ross Browne, our present Minister to China, will be retained.

Of the late Virginia election the Richmond *Whig* says: "From this day forward it may be confidently asserted, the white and colored people of Virginia, will in the main, act together. The blood line which has been attempted to be drawn, has left but faint traces that will soon disappear, and future political parties will in all probability be formed, without reference to race or color." This is a good platform, and we hope the *Whig* will stick to it.

The Government has just agreed to pay about $230,000 of the Iowa war claim, which claim was originally a trifle in excess of one million dollars, of which about $875,000 have now, in one way or another, been paid. The last payment is made under the act passed by Congress at its late session, and was for moneys expended by the State in what is called frontier defence. The balance of the claim, about $180,000, is not likely to pass the auditor's office without further legislation by Congress.

COMMERCIAL AFFAIRS.

The Marysville (Cal.) *Appeal's* San Francisco commercial reporter gives the following:

The Chicago merchants now here, having been assured of low rates of freight, say $5 per hundred pounds, by the officers of the railroad, are sanguine that a large overland business will be done, to the great mutual advantage of the two cities, and this is no doubt the case, more especially in fruits and grapes. The choice varieties that are abundant here will readily command $1 per pound in most Eastern cities, and they are readily transported and easily kept. These operations are, however, prospective. For the moment business is not active, nor is money abundant.

The supply of money for the purchase of grain is, however, full, and operations regular. The purchases in the interior are made as they come within the orders received here, and the supplies of wheat in the market are small, notwithstanding the apparent fair receipts, most of which go on shipboard, there being some 15 vessels under charter. The supply of good millers' wheat is there fore very limited, and as a consequence millers are not willing to take orders ahead.

Butter is brought by rail to California at 5 cents freight. By steamer the cost is 3 cents.

Real estate in San Francisco is still depressed. The *Bulletin* of the 21st says: At Maurice, Dyer & Co's auction sale of real estate to-day, only one piece of property was disposed of, as follows: Lot on the east side of Sixth street, distant 155 feet north of Bryant street, 25x160 feet, running through Park avenue, with the two story and brick basement house of nine rooms thereon, $10,500.

The following are the quotations of wool in the Boston market, July 16th:

A New York paper of the 15th says: The cable brings reports of fine weather in England, which, in connection with better reports from our northwestern wheat regions, has led to weakness and lower prices of both flour and grain.

SHOOTING SCRAPE IN BUTTE COUNTY. Last Sabbath afternoon, says the Chico *Northern Enterprise* of July 10th, our usually quiet town was startled by the report that a man was shot at Reavis' ranch. It appears that some reports derogatory to the character of John R. Preston had been circulated by certain parties, which had been traced to a negro on the Reavis ranch. Preston called at the ranch and made enquiries for the negro, when Mr. Wilson informed him he could not see him or something to that effect. Some other remarks passed, when Preston drew a pistol and fired at Wilson, the ball taking effect in the breast, passing through the upper part of the lung and lodging in the muscles of the back. Mr. Wilson lies in a very critical condition, the physicians consider his recovery doubtful.

Terrible Storm at Jacksonville.

JACKSONVILLE, July 27.—The most terrible and destructive storm ever known here passed over this afternoon. At three o'clock P. M. only a few slight thunder clouds were in sight, and in less than half an hour the wind was blowing heavily, accompanied with hail, thunder and lightning. After a short lull in the storm, the wind increased to a perfect tornado. Sheds, fences and trees were torn down, and nearly every fruit tree in the vicinity is badly damaged. Suddenly an immense body of water came rushing down Jackson creek, sweeping gardens, fences, bridges, orchards, telegraph poles and some cattle down with it. But as far as has been heard from, caused no loss of life. There was more water in the creek this afternoon than during the heavy freshet of 1861, and but little short of a water spout burst to the west of us. Nothing has been heard from the valley. But it is feared that immense damage has been done to the unharvested grain.

The "Bulletin's" Libel Suit

Frank McCoppin, a prominent politician and democrat of San Francisco, who holds the office of Mayor of that city, has sued the *Bulletin* for libel alleging that the libel is contained in the following article which appeared in that paper:

We are informed that a new scheme is on foot to defraud the city. This time it is to procure authority to trade away the present grounds reserved for a public park, and take in exchange lands situated near Lake Merced, some six miles away over the hills. The schemers want what good lands the city owns near the cemeteries. It is said McCoppin's friends own the lands which it is proposed to trade to the city. The plan is to get such a municipal government as will favor the trade, and then go to the Legislature representing that it is the will of the people, just as they did in passing the law under which the reservation was made. It is believed that if McCoppin is permitted to have his hands in another improvement, our park will dwindle to small proportions.

Commenting on the proceedings taken by McCoppin, the *Bulletin* says:

There never has been a time in the history of newspapers, when the utterance of a wholesome truth in the interests of the public was not considered by somebody a crime. McCoppin and his friends may be able to discover the foundation for a libel in the article quoted. We fail to perceive it. There is a little fiction which the Mayor probably understands as well as we do. His grievance is not that we published the article quoted, about which he don't care a fig, but the Mayor is in a tight place by the exposure of his course about naturalization and holding office without citizenship. This little piece of strategy is invented at a critical time to divert public attention from a damaging issue, and one which the Mayor has the best of reasons for wishing thrust out of view as quickly as possible. We understand the movement. The Mayor understands it. Hence the interesting fiction invented in the document which we have set forth.

MASSACHUSETTS LIQUOR LAW. The following from the San Francisco *Bulletin's* New York correspondence furnishes an instance of the general course of extreme prohibitory legislation.

The Massachusetts constables are enforcing the law pretty effectually in the country towns, but in the large cities the business goes on about as bad as ever in an underhand way. Half the saloons in the city have entrances at the back door, and let in everybody they know, and some are not at all chary of admitting strangers. The constables have even commenced closing lager beer saloons, and naturally the Germans are very indignant at this, and propose emigrating to New York or out West. It would not be at all surprising if there should be an exodus of Teutons from the Hub of the Universe, or, at all events, there will be a large portion of them that will desert the Republican party and go with the Democrats. It was the excise law in New York that carried that State last fall for Hoffman, and many of the friends of prohibition in Massachusetts are fearful that public sentiment will be against them before the election next November.
